

# **KENTUCKY DEPARTMENT OF EDUCATION**

## **STAFF NOTE**

### **Review Item:**

School District Watch List (Data on districts under separate cover)

### **Applicable Statute(s) or Regulation(s):**

KRS 160.470 and 160.550

### **History/Background:**

***Existing Policy.*** As a part of the Office of District Support Services' Management Improvement Program and statutory requirements, districts are required to end the fiscal year with a balance of no less than 2%. Those that do not are provided with financial technical assistance from KDE for a two-year period. At the end of this two-year period, if the district has balanced its books and is operating with 2% or more in its balance based on the annual audit, the district no longer receives the additional financial technical assistance.

KDE staff anticipates that several school districts have ended the fiscal year with a balance of less than 2% contingency. Detailed information regarding specific districts will be provided prior to the August KBE meeting.

KDE will provide assistance for the districts that have ended the fiscal year with a balance of less than 2% through Management Reviews.

### **Impact on Getting to Proficiency:**

It is difficult for a district to deliver appropriate education to all students given a balance of less than 2%.
